

DATE: Tuesday, April 9, 2019

TIME: Breakfast & Registration: 7:00 AM
General Meeting: 7:30 – 8:00 AM
Presentation & Discussion: 8:00 – 9:15 AM

LOCATION: [Marriott Minneapolis West](#) (952)-544-4400
9960 Wayzata Blvd.; St. Louis Park, MN 55426
Located north and west of I-394 and Hwy 169

Please RSVP to: [David Oxley](#) via email: doxley@acecmn.org or fax to ACEC/MN: (952)-593-5552

FORMAT: Breakfast meeting – cost is **\$25 for members**, \$40 for non-members;
\$15 for unemployed members and \$10 for Students & those in YMG.

MEETING AGENDA:

I. INTRODUCTIONS – Andrew Agosto

- June 5: RISA Presentation at Barr. Watch for flyer.

II. TREASURER’S REPORT / AND ACEC UPDATE – Dave Oxley

- None

III. COMMITTEE UPDATES

A. MNSEA Steering Committee – Andrew Agosto

- QAQC Inspection document is still in the works and will be finished this Spring

i MNSEER Committee – Douglas Fell

- Group will continue to meet during the Summer.
- Risk Mitigation subcommittee: ensure that when firms or engineers are called in to volunteer they have risk coverage.
- NCSEA National SEER will take MN Subcommittee and use it for theirs.
- Will get a lot of data and will need volunteers to manage that data using Basecamp.
- Will have updates on the website.

ii MNSEA YMG – Ricky Kirchner

Upcoming events

- Going to U of M to present to capstone class on lessons learned during the first year of your career.
- Site visit on April 18 to PT and wood project
- Hearts and Hammer event: Invite for donation
- RISA presentation meeting: YMG will recognize engineers who pass the PE exam
- YMG is in the middle of the Leadership transition, new chair and officers

iii MNSEA Annual Seminar and Trade Show – Greg McCool

- Open for registration this week. Watch for email.
- 3 great speakers
- Great prizes
- Good food

iv MNSEA SE3 – Lauren Piepho

- Getting a local SE3 chapter started
- First event May 29
- Look out for invite

IV. LIAISON UPDATES:

A. NCSEA Delegate Update – Doug Woolf

- Wind Committee: all submittals were for 2021 IBC Wind section were submitted on 1/7.
- Code hearing is from April 20th through May 8th.
- Final code hearing: in Las Vegas in October. put together by ASCE committee with NCSEA's blessing.
- One of them is to ramp up for Structural Observation for Wind systems.

B. NCSEA Wind Committee – Doug Woolf

V. OLD BUSINESS:

A. MNSEA Officer Elections

- i Secretary: Justin Saterbak
- ii Vice President: Quoc Le
- iii President: Greg McCool
- iv Past President: Andrew Agosto

Vote called - Motion carried

VI. NEW BUSINESS:

A. UMN EERI Results Presentation

- Shawn & Bennett from U of M

A Coalition of the
American Council of Engineering Companies of Minnesota

PRESENTATION:

ARCHITECTURALLY EXPOSED STRUCTURAL STEEL

Jerod Rudolf, PE

Architects want the architecturally exposed structural steel on projects to meet their expectations for appearance and budget. Fabrication, erection and acceptance criteria can be difficult to define in the project documents, often leading to disputes between the designer and the contractor over what was desired vs. what was bid. Building on language in the AISC Code of Standard Practice, attendees will see how they can more effectively communicate the desired appearance for exposed structural steel in a format that contractors can price/budget/ bid appropriately. Resources and tools are provided to assist in selection, specifying, budgeting, and evaluation of architecturally exposed structural steel.

Jerod Rudolf is the greater Minneapolis/St. Paul Structural Steel Specialist for the American Institute of Steel Construction. Prior to joining the AISC team in August 2018, Jerod worked as a structural design engineer, project manager, and structural discipline lead for 14 years on projects around the country while employed by local Minneapolis/St. Paul design firms BKBM, AeroSystems and TKDA. Jerod earned his Bachelor of Science in Architectural Engineering (structural) and Master of Science in Structural Engineering from the Milwaukee School of Engineering (MSOE). Jerod is a licensed professional engineer in Minnesota and works with architects, fabricators, general contractors, detailers, engineers, and other industry leaders to assist them in the use of structural steel in local projects.
